

PiiTii

design Mikko Halonen

The PiiTii series armchair and sofa combine beautifully designed wood and upholstered surfaces. Thoughtful round shapes and a strong look of wood create a feeling of softness in the space and exude a peaceful atmosphere. The versatile combination options of wood and upholstery offer the opportunity to create individual furniture solutions and integrate them with the rest of the interior.

Sustainability has been taken into account in the PiiTii series. The upholstery of the seat part is replaceable, which makes it possible to change the fabric to prolong its life cycle.

The armchair comes with either wooden legs, or a metal swivel base. The PiiTii series also includes a table and bench with the same look and feel.

PRODUCT DETAILS

Ash. Other wood options on request.

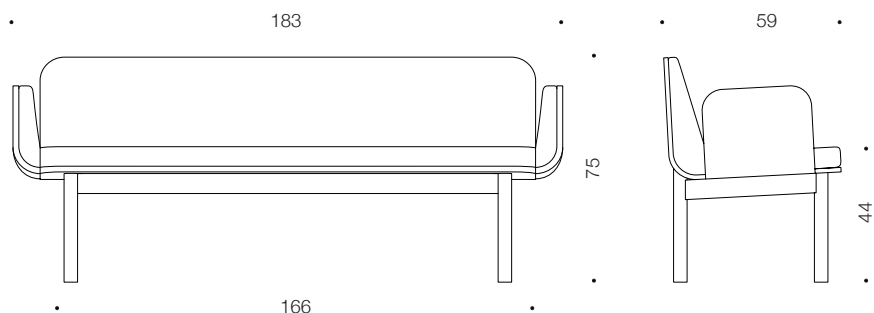

Writing tablet for sofa/lounge chair is available on request.
