

## COVID-19 PROTECTION PROTOCOL

The safety of our passengers and employees has always been our key concern at Autocares Julià.

The fight against Covid-19 further strengthens our commitment to safety and health with the adoption of certain exceptional hygiene measures.

## DAILY CLEANING AND DISINFECTION OF OUR FLEET

### 1. BEFORE THE TRIP

- Comprehensive daily cleaning of our coaches, using bactericidal and viricidal disinfectants that are not harmful to human health.
- Areas and points included in the daily cleaning operation:

#### Common areas

- ✓ Access handrails
- ✓ Steps
- ✓ Floors
- ✓ Seats
- ✓ Armrests
- ✓ Vents
- ✓ Switches and push buttons
- ✓ Waste collection

#### Driver's cab

- ✓ Access door and handles
- ✓ Steps
- ✓ Steering wheel
- ✓ Dashboard
- ✓ Driving seat

- Daily checks on the availability of Personal Protective Equipment (PPE) (gloves, masks and alcohol-based hand sanitiser) for the driver and accompanying staff.
- Indication of empty safety seats: The seatbelts of the “empty” seats must be provisionally fastened to guarantee the minimum separation between passengers to ensure maximum mandatory occupation.

### 2. DURING THE TRIP

#### The driver:

- Shall wear a FFP2 self-filtering mask and disposable vinyl gloves throughout the journey and must remain in the cabin whenever possible.
- Shall maintain the correct distance with passengers, both inside and outside the cabin.

**Users:**

- Until further notice, the use of masks is mandatory for all bus transport users.
- Enter and exit through the rear door of the vehicle. The front door will open in an emergency only.

- An alcohol-based hand sanitiser dispenser shall be placed at the rear entrance for passenger use.

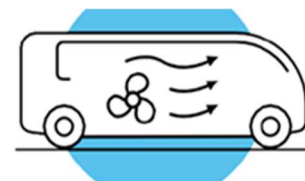

**Accompanying staff:**

- Auxiliary staff (guides, school trip accompanying persons, etc.) working in contact with customers shall use:
  - ✓ FFP2 self-filtering masks
  - ✓ Disposable vinyl gloves
  - ✓ 100 ml bottles of alcohol-based hand sanitiser
  - ✓ Basic disinfection products (for an initial disinfection after each trip)

**The vehicle:**

- The passenger compartment shall be ventilated regularly at stops.

**3. AFTER THE TRIP**

- At night, cleaning staff shall fully clean the coach, wiping down all surfaces (windows, floor, seats, control panel, etc.)
- Finally, UV-C lamps shall be left switched on, emitting UV light to sterilise against bacteria, viruses and fungi.
