Gui Zhou Province tender secured by Science International

We are delighted that our distributor in PR China – Science International have recently been successful in securing a large tender.

They have received an order for 100 Formaldemeter htv instruments, the tender titled was 'Instrument Setup Project for Development of Health Inspection and Supervision in county Level of Gui Zhou Province'. The Department of Health of Gui Zhou Province has received 100 Formaldemeter htv instruments. This is the 3rd large tender won by Science in 2013.

PPM to launch mobile app

PPM Technology Ltd Windows phone App will be released soon. iOS and Android compatible Apps will follow shortly.

The App will allow users to view product information as well as all instrument manuals through their smart phone or tablet.

For more information contact - tom@ppm-technology.com

New ASHRAE residential IAQ standard

The newly published 2013 version of ASHRAE's residential indoor air quality standard removes the default leakage rate assumption and also requires carbon monoxide alarms.

ANSI/ASHRAE Standard 62.2-2013, *Ventilation and Acceptable Indoor Air Quality in Low-Rise Residential Buildings*, is the only nationally recognized indoor air quality standard developed solely for residences. It defines the roles of and minimum requirements for mechanical and natural ventilation systems and the building envelope intended to provide acceptable indoor air quality in low-rise residential buildings.
