**YES** Will you be flash testing or 110V load testing? **NO**

→ Please visit [seaward.com/hire](http://seaward.com/hire)

Would you like your tester to be able to store test results for easy download to PC?

Would you like to store images against test results (e.g. visual inspection & failed appliances) for full traceability, complete other health and safety tests and inspection records and/or use a USB flash drive to transfer data to and from the tester?

Will you be testing portable RCDs or will you need to do powered leakage tests?

Would you like to upload assets for faster retesting and/or have the flexibility to customise user and test settings?

Do you require measured test result values?

Would you like to include asset details against test records (e.g. description, location, site etc.)?
