- Suitable for the majority of hand held test equipment
- Padded to protect the instrument when not in use
- Comes with a hand carry strap
- Includes a sleeve for manuals and paperwork
- Large zip for easy access
- Clear pouch for instrument identification tag

Socket & See TECC10 Soft Instrument Carry Case

The Socket & See TECC10 Soft Instrument Carry Case features two compartments which are ideal for holding and protecting your piece of test equipment and lead set. The divider can be flattened to create a larger, single compartment if preferred.

A large zip makes for easy access to instruments, accessories, manual and paperwork. The carry handle also makes for easy transportation whilst on site.

Internal sleeve for safe storage of manuals and paperwork.

The TECC10 includes a clear plastic panel on the outside. A piece of paper or card can be inserted so as to clearly identify which instrument the case belongs to.

Dimensions: 200mm x 240mm x 60mm
