

The complete electrical test equipment solution for Smart Meter installation engineers

- Assisting industry engineers to implement and practice safe working procedures, during the installation process.
- All components are suitable for use with PPE, as may be required by company policy for compliance purposes.
- For CATIV supply side safe isolation, the kit includes a 2 pole safety tester with unique HiZ /LoZ indication for glow tests and an auto-ghost voltage suppression for differentiating between potentially harmless phantom voltages and dangerous live voltages, a vibrating non-contact voltage detector for identifying phase and neutral lines and a single pole contact voltage and phase finder; all of which can be verified using the true AC waveform proving unit without needing to remove it from the custom case.
- 13A sockets can be checked with the colour coded LED professional socket tester.
- All components fit safely in a compact and protective carry case, which can be effortlessly carried using either the shoulder strap or belt loop.

go test.

VIP ESI

Electrical Service Industry Safety 2 Pole Tester

- Easy to use - Reduces training
- Auto-ghost voltage suppression
- Dual bank of colour coded LEDs
- HiZ / LoZ indication replicates glow test
- Interchangeable prods (right angle/straight)

SP400

Professional Proving Unit

- Voltage ramp
- Continuity check
- 50Hz true AC waveform
- Non-contact voltage pad

VVD PRO

Vibrating Non-Contact AC Voltage Detector

- Bright LED torch
- Visual verification
- CATIV Safety Rating
- Vibration verification
- 50V - 1000V Voltage range

EPF PRO

Hazardous Voltage & Phase Finder

- Visual verification
- Audible verification
- Works whilst using PPE
- Capacitive coupling consistent indication
- Heartbeat verification for correct operation

SOK32

Professional Socket Tester

- Self check
- Audible verification
- Colour coded LEDs
- Displays correct + 17 fault conditions

TECC2

Carry Case

- Bespoke Smart Meter Installation case
- Fully operational proving unit whilst in situ
- Complete with detachable neck strap & belt loop
- Durable, compact & safe storage for all kit components
