

## Arithmetic – Year 4 – Set 4

### About this Resource:

A set of 6 arithmetic tests for Year 4 Spring 2, building on prior mathematical knowledge.

### National Curriculum Objectives:

Mathematics Year 3: (3N2b) [Count from 0 in multiples of 4, 8, 50 and 100; find 10 or 100 more or less than a given number](#)

Mathematics Year 3: (3C1) [Add and subtract numbers mentally, including a three-digit number and ones](#)

Mathematics Year 3: (3C1) [Add and subtract numbers mentally, including a three-digit number and tens](#)

Mathematics Year 3: (3C1) [Add and subtract numbers mentally, including a three-digit number and hundreds](#)

Mathematics Year 3: (3C4) [Solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction](#)

Mathematics Year 3: (3F1b) [Recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators](#)

Mathematics Year 3: (3C2) [Add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction](#)

Mathematics Year 4: (4N2b) [Find 1000 more or less than a given number](#)

Mathematics Year 4: (4C2) [Add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate](#)

Mathematics Year 4: (4C6a) [Recall multiplication and division facts for multiplication tables up to  \$12 \times 12\$](#)

Mathematics Year 4: (4C6b) [Use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers](#)

Mathematics Year 4: (4C7) [Multiply two-digit and three-digit numbers by a one-digit number using formal written layout](#)

Mathematics Year 4: (4F4) [Add and subtract fractions with the same denominator within one whole \[for example,  \$\frac{5}{7} + \frac{1}{7} = \frac{6}{7}\$ \]](#)

Mathematics Year 4: (4F8) [Compare numbers with the same number of decimal places up to two decimal places](#)

Mathematics Year 4: (4F9) [Find the effect of dividing a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as ones, tenths and hundredths](#)

### More [Arithmetic](#) Resources.

Did you like this resource? Don't forget to [review](#) it on our website.

## Differentiation:

**Beginner** Multiplying by 7. Four-digit number add and subtract four-digit number (one bridge) Two-digit number multiplied by one-digit number. 24 questions. Aimed at Year 4 Secure (week 19).

**Easy** Multiplying by 7. Four-digit number add and subtract four-digit number (bridging) Two-digit number multiplied by one-digit number. Multiplying 3 digits together. Add fractions with the same denominator answers above one. 24 questions. Aimed at Year 4 Secure (week 20).

**Tricky** Multiplying by 7. Four-digit number add three-digit number. Two-digit number multiplied by one-digit number. Add and subtract fractions with the same denominator answers above one. Multiplying 3 digits together. 24 questions. Aimed at Year 4 Secure (week 21).

**Expert** Multiply and divide by 7. Four-digit number subtract three-digit number. Four-digit number add two-digit number. Two-digit number multiplied by one-digit number. Add and subtract fractions with the same denominator answers above one. Multiplying 3 digits together. 24 questions. 27 questions. Aimed at Year 4 Secure (week 22).

**Brainbox** Multiply and divide by 7. Four-digit number subtract three-digit number. Four-digit number add and subtract two-digit number. Two-digit number multiplied by one-digit number. Add and subtract fractions with the same denominator answers above one. One-digit number divided by 10. Multiplying 3 digits together. 27 questions. Aimed at Year 4 Secure (week 23).

**Genius** Multiply and divide by 7. Multiplying by 12. Four-digit number subtract three-digit number. Four-digit number add and subtract two-digit number. Two-digit number multiplied by one-digit number. Add and subtract fractions with the same denominator answers above one. Two-digit number divided by 10. Whole numbers add decimal numbers. Multiplying 3 digits together. 27 questions. Aimed at Year 4 Secure (week 24).
