

Madeline Eaton

I am a new governor having been co-opted in April 2018. I am the governor link for Data Protection and I am particularly supporting the school in preparing for the new regulations that begin 25 May 2018.

My son is in reception and my daughter may start at the Grove in 2019. I have worked in factual television for over twenty years, sometimes running large teams and also working on my own, depending on what the subject requires. I produced and directed the first series of The Great British Bake Off and then the third that won a BAFTA. Most recently I made Tom Kerridge's Lose Weight for Good that was for BBC2.

I am freelance and so will be fitting in my governors duties for the parts of the year when I'm not full time. I wanted to find a way of giving back to my community and it's clear that with reduced funding schools need our help more than ever.
