

### **Laura Partridge**

I began my career as a lawyer in 2013 after graduating from the University of Oxford Brookes with a law degree. After trying out various areas of law for the first few months, I rather quickly realized my passion was in education sector. I work in a law firm based in Exeter and am fortunate to work with around 450 schools and academies across the country.

In my spare time (!) I enjoy spending time on the water, or skiing in the beautiful snowy mountains of Sainte Foy!

I became a co-opted governor at The Grove in 2016. More recently, I started chairing the Resources Committee.

I live and breathe education and am delighted to be volunteering at such a wonderful school with a lifelong passion for learning.
