This card is for use at Templemoor. Review the card at least once a year and remember to update or exchange it for a new one if your child's treatment changes during the year. Medicines should be clearly labelled with your child's name and kept in agreement with the school's medical policy.

Use of emergency salbutamol inhalers

From 1st October 2014 the Human Medicines Regulations will allow schools to buy salbutamol inhalers, without prescription, for use in emergencies. It is now school policy for emergency salbutamol inhalers to be made available.

The emergency salbutamol inhaler will only be used by children for whom written parental consent for use of the emergency inhaler has been given, who have either been diagnosed with asthma and prescribed an inhaler, or who have been prescribed an inhaler as reliever medication.

The inhaler will only be used if the pupil's prescribed inhaler is not available (e.g. because it is broken or empty).
