

My name is Rebecca Manning I have three sons my eldest attends Dobwalls primary school and my two younger sons attend the school nursery.

I have a background working with the NHS for the past 15 years, specialising in emergencies and business continuity planning. I am new to the role of school governor, but have been educated in the local area, and lived in the surrounding area. I feel passionate how important Primary school years are for pupils and their progression on to secondary school. As Governor I would like to give back to the community and ensure children and parents have a positive primary school experience.
