

# Reception Peek @ the Week

## This week...

Last week we shared the Christian creation story with the children and then looked at other creation stories from around the world and talked about the similarities and differences between them. This week we have talked about the idea of the 'Big Bang' and made a timeline with the children. We will follow this next week with a topic about dinosaurs. If the children have any dinosaur books they would like to bring in, we would be very happy to have them but please make sure they are named.

If you have any old shoes we would love to have them as we are setting up a role play shoe shop in Reception next week.

A new Forest School group starts next week. If you have received a letter from Mrs Bazley, please make sure your children bring their Forest School kit on Tuesday.

## Reading Superstars...

We are checking the children's reading diaries daily so please make sure you write in the Red Reading Record when you read with your child. The children earn a sticker if they have read at home and anyone who has read everyday will get their name on this section of the newsletter.

## Maths...

We have been learning about shapes. We have noticed that lots of the children are not confident in recognising common 2d and 3d shapes so it would be great if you could keep practising this at home, maybe play game to see if your child can find common shapes around them e.g. a rectangle for a window or door and a sphere for an orange or football.

We hope you have a lovely weekend

The Reception Team
