"The Best we can be"

Issue: 957, 30.11.2018

Tel. 763324, Fax/Recorded Announcements 763115, www.st-hilary.eschools.co.uk

Dear Parents / Guardians,

The members of the parliament would like to inform you about the plastic free campaign we are starting up at St Hilary School. This campaign involves everyone trying to use less plastic throughout the school, like the straws in the tuck shop and making posters to advertise how not to use as much plastic as we do in this modern world. There are so many environmental reasons to stop and we want to make sure St Hilary is doing its bit to help!

So basically, to help to make our school and environment a better place, we have decided to try to cut down on the use of plastic. This leads us to ask a big favour from you at home; please can you try to cut down on how much plastic you use in your child's packed lunch box e.g. cling-film and such other single-use plastics.

We hopefully have helped to persuade you to use less single use plastic, but are not saying absolutely no plastic at all at St Hilary.

Thank you for reading this and we hope you will help.

Yours hopefully

Joel, Cody and Oliver
(Also Zelah, Catlin and Molly all helped with the initial idea).

DATA COLLECTION

With the General Data Protection Regulation (GDPR) that came into effect in May 2018, we now have new requirements around the way we use pupil and parent data. We have moved to the SIMS Parent Lite app for this purpose as it helps us comply with these new requirements, by providing a simple way to collect, manage and handle information by obtaining accurate data securely from our parents.

Therefore we will no longer be sending out the paper Data Collection forms that you previously received each Autumn term to check the information held on our computer system. If there are any parents who do not have an email address then you can come in to school and we will provide you with a paper copy, but we are unable to send this home with a child.

The Parent Lite app means you can provide us with additional information on crucial details such as medical information or dietary requirements, new mobile numbers etc using the text information function. In order to add/amend the information held for your child you will need to register for the app. This is done from an email that we sent recently, and if possible please could you register by the end of this term. If you have already registered from the first invitation that went out in April, as a number of you have, **please do not go through the process again.**

The app is available on iOS, Android and a browser, the SIMS Parent Lite app provides a convenient and accessible solution for you to electronically review and request changes to the data held on you and your children.

Thank you
Dot

This week's 'Hot Chocolate Friday' winners!
