

Science - Exercise

I can gather and record data to help me to answer questions

Maths Objective: I can interpret and construct simple block diagrams

Data: Block diagram

Tom asked some children which exercise their favourite was.

Use the data to finish the block diagram.

Running 4 children
Cycling 6 children
Football 10 children

Questions:

1. Which was the **least favourite** exercise? _____
2. Which exercise got 6 votes? _____
3. How many **more** votes did cycling get than running? _____
3. Tom says that **skipping** is better for you than **football**. Do you agree? Explain why or why not.
