

Year 3 Home learning

Our topic for the last 2 weeks of this term is Earthquakes and Tsunamis. On this page, you will find a range of tasks to complete that are related to earthquakes and tsunamis.

Ensure you carry out daily reading at home.

Children will have a library book from the school library.

Create a fact file about earthquakes.

- Look for the following information:
- What are tectonic plates?
- Which countries lie on these fault lines?
- Is the UK on a fault line?
- How do people that live on these fault lines prepare for earthquakes?
- What are their homes made out of?

Watch videos on damage from earthquakes in Japan and New Zealand.

Write a fact file about what happens during an earthquake.

What do you think is the effect on the environment after an earthquake?

Please complete 5 games on TTR Soundcheck daily.

Below is the link for the website:

<https://trockstars.com/>

Choose one of the world's strongest earthquakes and create a PowerPoint presentation all about it to show your class.

Don't forget to include lots of interesting images and information!

Our next science topic is tsunamis.

Find out:

- What causes a tsunami?
- Where are they found?
- What happens during a tsunami?
- What are the warning signs that a tsunami is about to happen?
