

# Basketball and Gymnastics

This term, Year One and Year Two have had great fun learning gymnastics and basketball. They have had specialist teachers supporting them and teaching them new skills.

Year two started their term with gymnastics, learning how to use the floor at first and then progressing onto different apparatus. Year two then swapped with Year one and tried their hands at basketball!

Year one enjoyed learning to develop their hand eye coordination, at first using bean bags, then when they were confident they had a go enhancing their ball control skills.
