

Science Learning Partnership Cornwall

Latest primary science CPD near you for 2019/20

As your local Science Learning Partnership (SLP), we are the go to place for subject-specific, high quality science CPD to help you develop your teaching practice.

We are also your ideal partner for professional development activity that takes place in-house. Whether you are looking to support individual schools or colleges or those in a multi-academy trust we can support you by:

- Identifying your CPD needs
- Tailoring the content of science CPD activities to your school or college's needs (full-day, half-day or twilight)
- Reducing costs by providing one session for all members of a department, school, college or multi academy trust

Cornwall Primary Science Share

The Wellcome Trust, The Eden Project and Cornwall SLP are delighted to invite all primary teachers to a special primary science share.

Keynote speaker will be Louise Stubberfield, the Wellcome Trust, Primary Science Education Programme Manager who will be sharing the award winning Explorify resource.

This network is a sharing platform for teachers to pool ideas and develop good practice. This strengthening of informal school-to-school support will create an effective network of information, advice and guidance.

Venue: Eden Project

Date: 31st Oct 2019 (4.30-6.00pm)

Fee: Free

Book now: www.stem.org.uk/RD198A11

Glass Guardians

Glass Guardians, the fantastic initiative from British Glass and Friends of Glass is back for its second year to teach primary school pupils the importance of recycling glass.

Not only will Glass Guardians help schools to achieve their Eco-schools green flag award, but there are many great prizes to be won as well! Challenging pupils to use their creativity and come up with a way to get people to recycle more glass, and you could win an Amazon Fire 7 tablet and £500 worth of equipment vouchers for your school.

Find out more and register for free resources at <https://nationalschoolpartnership.com/initiatives/glass-guardians-2/>

Primary Science Early Career Network

Cornwall Teaching School and Cornwall Science Learning Partnership are pleased to announce a new science network for early career primary teachers. Whilst aimed at NQTs and RNQTs it is **open to all** primary school teachers.

The programme for the 2019-2020 season will focus on developing subject knowledge in Biology, Chemistry and Physics as well as looking at working scientifically.

Book now for the following courses:

Developing Subject Knowledge – Biology

2nd October 2019 (1-4pm)

Book now: www.stem.org.uk/RD198A12
