## Golden Leaves

Drake: Noah

Lewis: Mary

Seacole: Martha

Darwin: Branok

Please can I remind all parents/carers that if anyone in your household or support bubble develops Covid 19 symptoms, then you must ALL self-isolate until the test result is known.

## Message from Sarah Price

Welcome back everyone. I hope that you managed to get some family time last week and enjoy the lovely weather. We have an action packed half term so please keep an eye on the diary dates. Next week, we are lucky enough to have a North Devon Cricket Club Coach coming in to teach the children cricket so please remember that your child needs to wear their P.E to school on Monday. We also have a skipping workshop at the end of June and here is their website for you to look at <https://www.skipping-workshops.co.uk/>. There will be an opportunity for your child to purchase a skipping rope but we will be purchasing some for school so this is purely optional and more information will be sent out next week.

The 21 June will also be Diversity and Inclusion Week and the PTFA are asking that children wear rainbow coloured clothes on Wednesday 23 June. Keep an eye out for the posters around school.

I also want to remind you that the deadline for EU Settlement Scheme is 30 June. If you know anyone who hasn't applied, please share this [link](#) to ensure that they do not miss the deadline.

## First Steps (Pre-school)

Hello everyone and welcome back to the next part of term. We are very excited as we have been singing some football songs ready for the European championships. We are also making flags and preparing healthy half time snacks. Best wishes First Steps (football) team.

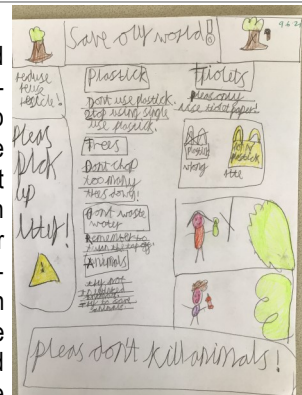

## Darwin Class (Reception)

What a cracking start to the summer term; the increasingly warm and sunny weather has given us plenty of opportunities for outside play, starting off with releasing the butterflies; we've also enjoyed lots of water play with a great big water run outside! The children have hit the ground running with their writing skills this week, with a brand-new cafe role area with lots of menus, order lists and food items to be written down. We will be using this space to learn about money and prices next, extended by the children's interests!

## Seacole (Years 1 and 2)

This week we have started a new topic. We are thinking about how we can help the environment. Seacole class had loads of great ideas about how we can help animals and their habitats. We created posters with all these ideas on them. In Maths, we are revising multiplication and division. The children have been practicing different strategies to solve multiplication and division questions. In English we have started a new book called 'No- Bot The Robot with no bottom. In the book the robot loses his bottom and his friends help him to find it.

## Lewis Class (Years 3 and 4)

Year 3/4 kick started this half term with World Ocean Day on Tuesday, which not only gave us some great ideas to use in English over the next 2 weeks but also linked into our science work on living things and their habitats. We delved deeper into the threats to habitats on Thursday afternoon and began exploring the UN Sustainable Development Goal 15: Life on Land by looking at the different topics this covered and discussing the small changes we can make to help meet these. In maths, we're recapping our fractions work and Miss Holland has been really impressed that the key sentences used during lockdown learning have stuck with the children!

## Drake Class (Years 5 and 6)

This week in Drake Class the children have begun their new topic on space and have a new text in English to study which is all about Ernest Shackleton's amazing adventure to Antarctica. The children have listened to the story and have written some great pieces of writing using emotive language. In maths we have been revisiting the four number operations - addition, subtraction, multiplication and division. In art we have begun looking at different printing techniques - starting with a technique called pouncing where you make small pinholes in paper and dab charcoal through them to leave an image. We have also handed out the roles for the end of year production so in the upcoming weeks we will be learning songs and lines in preparation! Next week we begin our new cricket topic in PE - don't forget PE kits on Monday.
