

# Summer 2011

Summer was a very busy time at Whimple. The children in Key Stage two were studying World War Two and had an interesting day experiencing what war time life was like.

The children learned how messages were sent in code to confuse the enemy. They had a go at sending and decoding messages.

They learned about the importance of remembering to carry a gas mask and what would happen during an air raid.

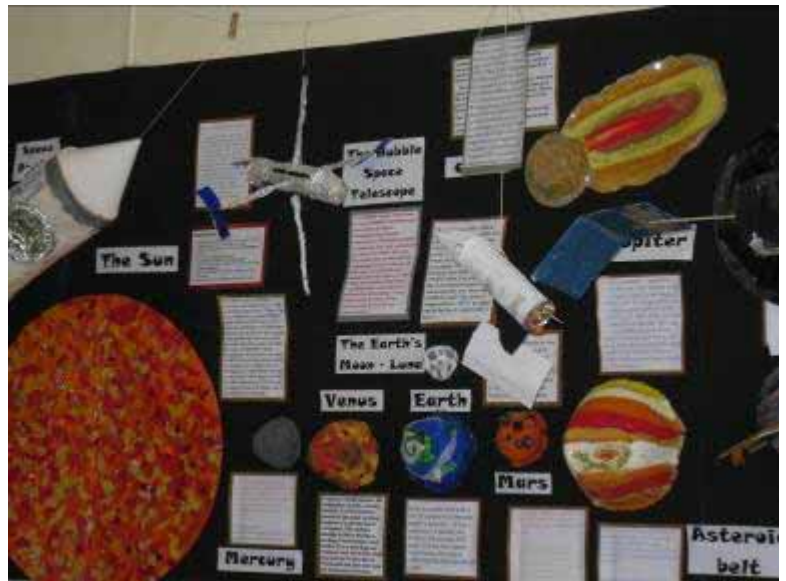

The children learned through drama and role play. They took their responsibilities seriously and all worked together to get the job done.

# Space

Years four and five were studying the Earth in space. The children worked in teams to produce a fantastic visual display to show what they had learned and for other children to learn from.

Can you name all of the planets?

Each group contributed to the display. They had to research their part of the model and make sure that it was accurate.

The choir Performing in the main arena.

This was our biggest gig to date! It was a little nerve racking but we gave it our best!

Dancing at the ceilidh workshop.

# A DAY OUT AT KILLERTON

**HAVING FUN  
WITH OUR FRIENDS.**

# A visit from our Swedish friends.

Our choir were  
lucky enough to  
have an  
opportunity to  
sing with a  
visiting choir  
from Sweden. They taught our children some traditional  
Swedish songs and our choir taught them some of their  
favourites.
