

Arts Week 2010

Our third Arts Week gave our children the opportunity to take part and try out a range of arts and art techniques!

Dance.....

Monday saw the return of our good friend Lottie Smith - South West Young Dancer. She performed Ballet and Modern dances before running dance workshops.

Working with years two and three.

Years five and six go through their routine.

Then it was time to perform for the whole school.

Thanks Lottie! Come back soon!

Singing and Dancing.....

Year six taught children in reception and year one songs that they had been taught by children from Rockbeare school. This was part of the 'singing in the playground' project.

The teachers joined in with the singing and dancing.

Sculpture.....

The children looked at the work of artists such as Antony Gormly and worked in groups to make life size figures.

They formed individual body parts using some of the children as models.

They made arms and legs..... with some help from Mrs Vanstone.

The finished figures look great!

Our youngest children had a fantastic time painting their 3D models in the playground.

The children also made some fantastic mosaics based on their residential trip to Grenville House.

The pictures were made up of small squares of colour.

The children worked with the Village Produce Association and produced a piece of illustrated handwriting. Children from year two up also learned how to transfer a design into cross stitch.

Beth Perkins produced the winning piece.
You can see all of the children work in school.
