

## **Providers of Technical Education and Apprenticeship**

Plymouth High School for Girls is committed to giving students access to providers of technical education and apprenticeships. We had the biggest turn out from any single school at the recent 'Women in Stem' Plymouth Career's Fayre at Dartmoor Zoo.

All students are encouraged to explore their choices by visiting the 'Skills Southwest Event' and the Apprenticeship Job Fair; these events take place on an annual basis and the dates are published in-house and in our newsletters.

We welcome any provider of technical education and apprenticeships to have a stall at our 'Choices Fayre' which will take place annually during the first week of July from 13:40 – 14:30. All students are encouraged to attend as part of their careers research and development.

Providers of technical education and apprenticeships who would like to reserve a table should contact Heather Longford by email by 31<sup>st</sup> May.

hlongford@phsg.org

Please note there is no parking available on-site, North Hill Car Park is the closest pay and display car park; up to date costs and location can be found online.

### **Further Opportunities for Employers, technical education and apprenticeship providers**

We have a wide range of opportunities for you to get involved.

<b>Autumn Term</b>	Enterprise Day, Year 11 Mock Interviews, Careers lessons, (max 30 students); eg. CV writing, employability skills, career talks
<b>Spring Term</b>	Enterprise Day, Careers lessons, (max 30 students); eg. CV writing, employability skills, career talks
<b>Summer Term</b>	Work Experience Provider & Reflective Learning session, Enterprise Day, Careers Talks to 6 <sup>th</sup> form, Careers lessons, (max 30 students), eg. CV writing, employability skills, career talks

If you would like to be involved in any of our events or lessons during the 2018-2019 academic year please email: hlongford@phsg

We will do our best to accommodate where possible but please be aware that selection for career talks will be student led. Please attach a portfolio outlining your area of expertise in your email. This will be displayed so students can vote for the speakers they would like to invite into school.
