Welcome Back

Welcome to the Summer Term! I can't quite believe that we're already at that time of year.

Summer is always a very busy time in school so I am sure that this term will whizz past too!

The children have all made a great start this term, and have settled quickly into their learning.

As always, I am available at the end of every day if you want to chat about your child's learning.

Many thanks,

Miss England

Homework

Thank you for all the support you have given with homework so far this year. I will continue to send home spellings and a short online maths game most weeks. Please ensure that children are taking time to practice their spellings over the course of the week. Many thanks.

Topics

Our topic for this half term is called 'Flow'. It follows on nicely from our work on rainforests last term, as we have begun by looking in more detail at the importance of the Amazon River. We will move on to learning about other major rivers around the world. This topic will include work on the water cycle and how important rivers are as a habitat and for sustaining life.

Reminders

Can I please remind children to only bring in topic-related show and tell. We have recently had lots of lovely bits and pieces brought in, but I am afraid there is not time to show and discuss them unless they are related to our learning. Sorry!

Reading books will be changed twice a week, on a Monday and a Thursday.
