12 February 2019

Dear Parents

We are holding a Maths Week in school on Monday 25 February. During that week the children will be taking part in a range of mathematical activities and challenges.

To start off the week we would like to celebrate 100 school days that will have already occurred at the start of February. We have set a special homework task in preparation for this week. We would like your child to make their own games that they can bring to school and share with others. They could create a board game such as Snakes and Ladders and display calculations that must be answered correctly to move around the board. They could make a card game for example that matches shapes to their names or properties. They could write instructions for an outdoor game. These are just some examples. We hope you enjoy carrying out this challenge and we look forward to seeing what you do. Please bring these into school at the start of the week, labelled with your child's name and class.

This will end with a non-uniform day on Friday 1 March. We would like children to come to school dressed in something Maths related. It could be numbers drawn on a t-shirt or even their faces painted as a clock. There are some non-sewing ideas on the following website:

www.theschoolrun.com/no-sew-mathematical-costumes-for-maths-week

Thank you for your support

Mrs Waters
Maths Lead
