Friday 3rd November

Headteacher Comment

So we are now into the second half term in the year, and the run up until Christmas.

I thought it was a good time to let you know about some of the changes we have made to school since September.

We have changed the way we assess the children in Reading and Maths, now using on-line tests to find out where the children are and what they need to do next to progress.

The curriculums for English and Maths have changed too. English will now be taught around high quality texts and in Maths we are focusing on key mathematical concepts and deepening children's understanding.

We have also just brought in a Reading program that will put the emphasis on regular reading opportunities and following this time up with quizzes to check understanding.

Please keep supporting us with these changes, especially reading with your children at home.

Thanks

Mr D. Nelson
Headteacher
