How to Login to School 360

1. In the browser bar, type in www.school360.co.uk

2. In the "user name" line – type your login name. This is the same as the login for the computers at school.

3. In the password line – type your password. If you were in school last week, your password should be

    The same as the password for the school computers

    WITH A CAPITAL LETTER AT THE BEGINNING

IF YOU WERE NOT IN SCHOOL LAST WEEK

4. Your password is Glendale1

5. When you put this password in, school 360 will ask you to change it. Change it to your school computer password with a CAPITAL LETTER at the beginning

    e.g. if Mrs Parkin did this, she would change hers to

    # Julie1468

6. If the computer asks you to save the password, click on "NEVER" – never save your passwords that are unique to you.

Year 5 - If you cannot login, or have forgotten your password, then please check your planner – this should help you.

If you still have difficulty logging in, please phone the school office and leave a message or email: glendalemiddle@woolerandglendale.co.uk
