### Outside Area Improvements

We have been planning an upgrade of our play facilities in our school yards and playing field. The PTA have kindly given school £500 to improve our outdoor spaces for the children and as a result Mr Hogg has been working very hard on several projects over the last few weeks. Below (and online) are pictures giving a brief glimpse of the new additions. Watch out as more will be added in the coming weeks!

We have designed and are installing a new tyre trail which will be in place under the trees at the end of in the KS2 yard.

Mr Hogg has cleared the fenced off area at the bottom of the school field. This is destined to become a dedicated Forest School classroom, with a meeting area already taking shape.

A new stage has been installed in the KS1 yard and the pirate ship has been enhanced with the addition of a flag.

We now also have a tepee which is already in use in our Early Years area.

We will provide updates as things move forward but in the meantime our thanks to you all for your fundraising support, it really makes a huge difference!
