

Thursday 7th February.

Went to Rainbow Room with K.A. found Miss Nichol with Logan. Miss Nichol asked if we could change face so I tried calmly speaking to Logan but he was so angry and started kicking at me as he wanted outside and we were trying to lock the door to make him safe. He then started to try and bite Miss Nichol and myself, talking to him calmly and restricting his actions but he kicked me a few times on both legs. Hitting out and caught my face knocking my glasses onto the floor. He seemed to calm down and started ^{to cry but not} enough to leave loose ^{of} the door. Then he started to lash out again with kicking, hitting and shouting all because he wanted to go outside to play. Have a bruise appearing on my left leg.
