

My Home Learning Journey Grid- Week beginning: 01.03.21

Links to resources can be found here:  
[http://www.seatonsluicesouth.northumberland.sch.uk/website/year\\_4/](http://www.seatonsluicesouth.northumberland.sch.uk/website/year_4/)

Add photos or videos to Class Dojo to show us your work!

We hope you enjoy your home-learning tasks this week! Well done for working so hard.

### Task 1

Complete your daily **maths** lesson! Find all of the links on the website. They must be completed in order.

### Task 2

Complete your daily **English** lesson.

### Spellings

Spellings are on the website for you to look at.

### Task 3

Use the **Science** PowerPoint to learn more about electricity. Complete the activities too. Remember, you don't have to use the sheet- it's there to help you set your work out but plain paper is fine!

### Task 4

Go to [Make Your Favourite Book Character \(worldbookday.com\)](http://worldbookday.com) and create your own potato book character! Happy World Book Day!

### Times tables

Please re-learn your **6 times table**. You need to be able to count in 6s and answer multiplication questions at random.

### Task 5- History

Use the information provided to learn about The Bottleworks in Seaton Sluice. You could use the internet to work out where it was located and go for a walk there.

### Reading

Access Bug Club and read for at least 15 minutes per day.

### Computing

Click here <https://hourofcode.com/uk/learn> and complete the next coding activity. Help your Minecraft character complete a series of challenges while learning to code!
