<p>Maths time : Maths starter:</p>	

With your eyes closed, listen and count aloud as your adult drops cubes (could be bricks/marbles etc) into a container. Can you show me using your fingers how many cubes I used?

Today we are learning about: Counting

Activity: *Count the pictures of the pets and write the number in the circle. So you don't lose count, why not cross them off as you count or colour them in.?*

Or try

English and Understanding the World:

Today we are learning about....

Positional words

Activity: p12 Where's Snowy?

Look at the pictures of Snowy and the chair. 'Where's Snowy?' Tell your adult where Snowy is - 'Snowy is on the chair,' etc.

Now play the same game using your favourite toys and tell your adult exactly where your toys are in a sentence.

(If you've got one of the Where's Spot? books, it's a great way of helping your child use these sorts of words.)

Look at the **Where is Max? preposition sheet.**

Can you tell your adult where this puppy called Max is in these pictures and then **write** the word into the space. You might even be able to write the whole sentence.

reading.

Reading skill focus:

Listen to the story of Hairy Maclary by Lynley Dodd. [Hairy Maclary from Donaldson's Dairy - Books Alive!](#)

Why not choose your favourite dog in the story and colour it in using the Pets colouring posters or you could just colour them all!

Remember to read your reading books and use Oxford Owl for more. See link
