

Summer Term - Upper Key Stage 2

China, an ancient, mysterious and beautiful land, which is always appealing to adventurous visitors and this term, our Upper Key Stage 2 children. Abundant in a variety of resources, plants and animals, the land has nurtured generations of people and treasures for us to explore as we enter the Summer Term.

Science

As a group of young scientists, the children will work outdoors, scientifically; taking part in many inquiry based activities. This combined with the use of video clips, will facilitate a correct conceptual understanding of the topic; addressing their own misconceptions.

History

As historians we will appreciate the achievements of one of the earliest civilisations— The Shang Dynasty. We will discover what was left in tombs; learning about royal burials as well as what life was like for ordinary people.

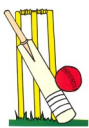

Art

Class 3 will improve their mastery of art and design techniques, including drawing, painting and sculpting with a range of materials.

PE

Our PE coverage this term will be delivered by a range of specialists; Miss Alderslade, Matthew Senior and Mr Hoops. The summer term brings the sun which will ensure we will be on the field; developing and improving our skills in cricket and athletics.

RE

Class 3 will be exploring the concept of 'The Kingdom of God' which is a concept that represents and gives an understanding to Christian belief and practice. They will consider the present and future aspects of the 'Kingdom of God'; examining the impact of beliefs in everyday life, through exploring celebrations, creative and spiritual expression, as well as calls for justice which require the children's ethical responses.

Geography

As geographers we will explore the physical geography, such as the Yangtze River and Himalayas. We'll look at economic growth as well as the Great Wall. It will be enlightening to immerse ourselves in the culture; looking at Chinese food, festivals, traditions and leisure time.

Newsletter

French

This term brings our Year 6 France trip! Mrs Magee will be continuing to deliver her engaging, practical and engaging French lessons; ensuring we're ready for France— the question is, is France ready for us?!

Computing

In Years 5 and 6 we spend a lot of time thinking about our future careers, which all require implying our computing skills. This term we will be evaluating and making our own website pages; highlighting our learning which has taken place throughout our topic.

Music

Mr Radford will be continuing to bring music to our ears, on a Monday afternoon, as he teaches our Key Stage 2 children.
