

Dear Parents and Carers,

This week has been a scorcher and we have taken extra precautions to keep the children comfortable during the hot weather. I spoke to them in assembly about putting on sun cream before coming to school, wearing sunhats, keeping in the shade and maintaining good levels of hydration – we have all needed plenty of water during the last few days!

The forecast is set for the sunny weather to continue into next week and we have our sports day on Monday. Parents are invited to attend in the afternoon so please take the necessary precautions to avoid sunburn or dehydration. I would also remind you to watch the races from the allocated areas to give the children the very best support and encouragement.

We spoke in assembly this week about how the England football team had shown great British values in their match against Panama last Sunday. They played well, stayed calm and composed and treated their opponents with respect even when they faced provocation and some unfair behaviour. Our sports day will be an opportunity for our whole school community to come together, demonstrate how we put this understanding into action and celebrate our children's sporting achievements.

This week Reception children performed their first 'Year Group' assembly to their parents/carers. They put on an amazing performance and we are sure their parents/carers will agree they did incredibly well.

Many thanks for your continuing support!

Andy Mitchell – Head Teacher

Governor Focus

As safeguarding governor for the school, I meet at least twice a term with the Deputy Head (Designated Safeguarding Lead) to discuss and review the school's safeguarding policies and procedures. The school has just completed and submitted the local authority's annual safeguarding audit, and we are pleased to be able to tick every box and provide evidence of our compliance.

Focus on Excellence

Year 4 have been focusing on 'teeth' for the last 2 weeks. How many we have, what are their different jobs and the structure of our teeth. We found the information we needed in books, made notes and diagrams to remember the information, then created a non-chronological report packed with facts.

Try and quiz your children on what they have learned about the first stage in the digestive system.
