

Green Class

14-09-18

What a fantastic week Green Class have had! We have started cookery this week and swimming. We have really enjoyed making Tacacho's which people living in the jungle eat. Everyone was abit hesitant to taste at first but then tasted a little bit and really liked them!

This week in Maths we have been covering Place Value and learning how to read and write numerals up to 20, 100 and 1,000! We have used numicon, dienes equipment and dice to work out some really difficult sums.

In Literacy this week we have been looking at the book 'The Great Kapok Tree' . We have been making predictions and using question starters such as who and what to think about what the book could be about! We have also been composing sentences with a noun, adjective, verb and a suffix in!

In Science we have been investigating how different leaves are and which tree they belong too. We used the same leaves we collected for some art work making leaf catchers to hang in our classroom!

It has been a very busy week!!

Thank you for sending their home/school diaries back in. Hope everyone has a fantastic weekend!

Homework to be handed in by next Friday please
