

Green Class

5-10-18

This week Green Class have enjoyed poetry day, swimming and getting a surprise on Friday because everyone got to another number on their reward chart!!

In Literacy we have been looking at fiction and non-fiction books. We have been able to group them and also use non-fiction books to find out facts about snakes as Mrs Lowry brought 'Fang' in for a visit!! Everyone really liked saying hello to him and giving him a little stroke!

In Maths this week we have moved onto 'Measurement' and have really enjoyed measuring each other and finding out who was the tallest/shortest. We got to use a metre ruler and tape measure to find out and then enjoyed using them to measure different items in the classroom.

In Cookery this week we have been making pizzas and discussing where they were originally made which is Italy. We all found Italy using the globes and maps, using clues such as it is in Europe and it is a country near Switzerland?

In Science this week we have been exploring different parts of the plants and finding out what things they need to survive. Some pupils wanted to take their plant home!

During Poetry day we got to make some very spectacular poems which have gone up on our display board in the hall. We look at making Autumn themed acrostic poems, shape poems and looking at rhyming words.

Hope you all have a fantastic weekend!!
