

# Green Class

23-11-18

What an exciting week! An Author visit and a Visit to the Locomotion despite the very rainy weather!

On Monday afternoon we got to listen to a very exciting story read by the author about frogs and really enjoyed meeting different pupils from other schools.

In cookery we have made Jam tarts and in art we have been making patterns for other pupils to solve using different shaped sponges such as coloured triangles and squares.

In maths this week we have been looking at nets of different 3d shapes and making them using cut out paper templates and cocktails sticks and blue tack.

In Literacy this week we have been answering comprehension questions about our story Clink and writing a script for an advert about their invention. Their advert will be filmed tomorrow and continuing next week.

On Wednesday we went to visit the Locomotion where we got to learn all about the staff needed to drive a train. We found out that the driver would cook his breakfast of sausages and egg on a big shovel ! We also got to build our very own railway track and learnt that it is really important to work together as a team as we could not move the pieces on your own.

Have a great weekend!
