

Green Class

26-10-18

Wow what a fantastic week it has been! 2 visits, Science Day and swimming! We have been very busy but we have had lots of fun learning and enjoying our well earned reward visit!

We have enjoyed making slime, making a parachute for our egg to land safely and made our own ice cream using ice and rock salt for Science Day.

On Tuesday we got to go on our Reward Visit as everyone in the class had reached the top of the river on our reward chart. We went to clip and climb and the soft play. Everyone really enjoyed it and tried really hard on the different walls! Some even stepped off a plank that was really high up!

We then went to the zoo on Wednesday and saw lots of animals! We also saw the Lemurs and Meerkats being fed!

We are continuing to go swimming on Thursday afternoons after half term and will continue to give homework on the first Friday back after half term!

Have a fantastic week off and have a happy Halloween!!
