

Year 1 Autumn Term Project Plan

Essential Question:
What is the story of when
the dinosaurs walked the
earth?

Project Launch:

A visit to the Great North museum (Hancock) on Thursday 12th September 2019 to view the dinosaurs/fossils exhibition, visit Dippy the dinosaur and become a dinosaur explorer.

Mini Outcome 1

Research prehistoric life

The children will research prehistoric life (focusing mainly upon dinosaurs). In English the children will use the facts they gather to write information texts and non-chronological reports. They will learn more interesting facts during foundation subject lessons with links to the project.

Mini Outcome 2

Create their own dinosaurs for the video

The children will create their very own dinosaurs from recycled materials during art and DT lessons to feature in Year One's educational video.

Mini Outcome 3

Record the educational video

During Computing lessons the children will learn how to use the camera app on the iPad to take photographs and record videos. We will then work as a class to record our video using the iMovie app.

Real World Outcome

Screening of our educational video.

You are invited to attend a screening of our dinosaur themed educational video. The video will feature an all-star cast of year one children and will tell you all about what it was like when the dinosaurs walked the Earth and facts they have learnt!
