

Top Ten Activities – Year 5

Maths (5 house points)

Continue to complete the daily maths activity from the White Rose Home Learning Hub.

<https://whiterosemaths.com/homelearning/year-5/>

Reading (10 house points per book)

Using BBC daily lessons, complete a reading comprehension. I recommend 'To Be a Cat' by Matt Haig. Follow this link: <https://www.bbc.co.uk/bitesize/articles/zn8bgwx> If the text is not appropriate for your child, you could always choose a different year group to suit their reading level. It is my hope that children will continue to develop their love of reading and read books that they love at home by themselves or to an adult. This is such a great way to widen their understanding of sentence structure, comprehension and vocabulary.

Writing (5 house points) Have fun writing some poetry! Below is a link for some funny poems online – take inspiration from them and try and create your own:

<https://www.poetry4kids.com/poems/>

Science (5 house points)

During the Easter term we started to look at animals including humans and were due to learn about life cycles of plants and animals. Below is a link to some video clips and quizzes to check their learning. You could even draw and label a diagram of a life cycle you find particularly interesting.

<https://www.bbc.co.uk/bitesize/topics/zgssgk7>

Art (10 house points) Use the BBC Teach website to broaden your artistic skills! You can develop your geography work by watching 'how to create a collage landscape' – perhaps you could create a collage of a US landscape to further your work in Geography?

<https://www.bbc.co.uk/teach/class-clips-video/art-and-design-ks2-ks3-schools-art-and-design/zmd4mfr>

Big Project – What opportunities do I have in the future?

Create a collage of all of the things you would like to do in the future – you could use clippings from magazines or newspapers. If these are unavailable to you, you could draw your ideas. Perhaps you could incorporate skills from different lessons to help you do this. For example, you could create a collage using images from the internet and paste them onto a word document. You could create a map of where you would like to live or how your local area might have changed.

Music (5 house points)

Use your Charanga login to learn the song 'dancing in the street':

<https://www.musicpartnershipnorth.co.uk/scheme/1312105-year-5/1314278-dancing-in-the-street>

Take some time to find some songs that make you feel happy. Think about the lyrics, rhythm, and instruments. What about the songs you like?

Daily lessons (3 house points per lesson)

You can dip in and out of these daily BBC lessons. They cover a range of subjects and they are all good revision. We don't expect you to complete them all. Please remember to have regular breaks.

<https://www.bbc.co.uk/bitesize/tags/zhgppg8/year-5-lessons/1>

Geography (3 house points) In Geography, we would have been looking at maps and the United States of America. Try to create a map of your house or your local area. The information on the link below will help you:

https://www.geography.org.uk/write/MediaUploads/Support%20and%20guidance/Home_-_mapping_revised.pdf

PSHCE (3 house points)

Meditations for children: <https://www.headspace.com/meditation/kids>

Daily Lessons for PSHCE:

<https://www.bbc.co.uk/bitesize/subjects/zqtnvcw>

Dip in and out of materials as you see fit or if they capture your child's interest.

PE (3 house points) Continue to follow along with 'The Body Coach TV' on YouTube and complete Joe Wicks' workout every morning at 9am. If you have a ball at home, can you practise your bouncing and passing skills? Or perhaps football skills? If you do not have any equipment, you could make a fitness circuit or a dance routine in your house to keep your family fit and healthy!
