

Reception Home Learning Timetable

Below is the Summer Term 1 timetable that we would like you to use a guide for child's learning whilst the school continues to be closed. We will be uploading videos and activities to Tapestry to complement the online activities below. **There are a selection of activities for you to choose from to do at your own pace, but please do not feel under pressure to complete all of them.** Each week, you will follow on from the previous week's lesson in each subject, so this means that the timetable is unlikely to change, unless we discover any topics or books that we have already covered. If that happens we will make sure we contact you with new plans and activities.
