Resourcing

There are many online resources available to support our home learning. Please use White Rose Maths and Oak National Academy (as well as BBC) if you require some supplementary teaching videos to watch or activities to undertake.

Google Classroom

Home learning will be released at 7pm ready for the next day. This is to enable parents to look at the learning in advance, if they wish to do so.

Feedback on GC/email

The School Leadership Team do not expect personalised individual comments on every piece of work, but will try and provide feedback as and when they can (sometimes this may take the form of a whole class comment/observation/feedback)

Communication

Please use the following channels in this order for communicating with teachers about learning.

- Google Classroom (learning), including submitting learning
- Class Home Learning Email (to ask any queries you may have) – this will be shared on Google Classroom.

Please try to avoid using class teachers personal work email to communicate.

Expectations of children (and parents)

We expect children to be completing online learning and submitting learning daily via Google Classroom.

It is vitally important that you complete as much learning as possible. If it is not possible to upload learning daily, please speak to your child's class teacher to agree when learning will be completed and uploaded to Google Classroom. We are here to support you and help in any way we can, but unfortunately we are in a situation where we are having to ask a lot of you. It is for your child's benefit and to ensure their education continues to happen despite this further period of disruption. I hope you can work with us to secure the best possible outcomes for our Milford children.
