

Key Stage 1

Hi Everyone,

Here are some even more ideas of things to do at home which should be enjoyable and will support the learning that we have already done in school.

Love from

The Key Stage One Team x

Making Your Own Top Trump Cards

Making these are a great way to use you writing, maths, geography, history, science and art skills! Choose a theme and make cards so that you can play with your family.

www.twinkl.co.uk has some free editable Top Trump templates which you can download but you don't really need these!

| <small>Zebra live in groups on the savannah and grasslands of Africa. They eat grass, leaves and shrubs. Zebras have very good sight and hearing. This makes it difficult for predators to come near them. Zebra foals are born with brown and white stripes. They can stand up and walk almost immediately.</small> | | <small>Lions live on the savannah and grasslands of Africa. They also live in forests in India. Lions hunt and eat other animals, such as zebras and deer. Newborn lion cubs are small, blind and do not have fur. Their mother moves them to different dens in the first few months to protect them from hungry predators.</small> | |

Make a Map

In geography, we have been looking at maps of Gosforth. You could draw a big map of your street, or Gosforth or even Newcastle, thinking about the human and physical features you will see. If you have lego or building blocks, then you could build some buildings to go onto the map!

Create a Collage

Cut up old magazines, newspapers and cards and make a collage. We love this idea for a rainbow collage! You can cut out letters from a newspaper to make your own alphabet chart!

Make your own 'Would You Rather?' Book

Children in Class 4 know this book by John Burningham. There are different scenarios and you have to decide which you would rather. So, it might be 'Would you rather be sat on by an elephant or swallowed by a giant fish?'

You could make up your own dilemmas and then ask people what they would choose!
