

## Road Safety and Travel Planning

We have been working with the City Council on updating our Travel Plan for our school and we are on target for achieving a Bronze Modeshift Stars award this summer.

The travel plan details all the road safety initiatives that our school is involved in including the Cycle Smart training for our year 4 children, Walk Smart training for our year 3 pupils and Road Safety for our years 1 and 2 and Reception children. We have campaigned for many years to have improved road features installed outside of our school and these have recently been installed in the form of a school safety zone, school keep clear markings, double yellow lines and a zebra crossing. The safety of our children is our greatest priority and we have asked for signs outside of the school to remind drivers that the speed limit is 20 MPH speed limit. These have also now been installed. We continue to promote the Park and Stride facility for parents to use at the start and end of the school day and ask that people do not park in the adjacent streets. There is ample parking a short walk away from school at the Park and Stride facility.
