

How can you support your child at home?

Year 3 curriculum Autumn Term

Maths

Times Tables

Children need to know their Times Tables fluently. All children have access to Times Tables Rockstars. Every child in year 3 has a login for this in their planners. Please ensure that your child/ren are using this regularly. By the end of year 3 children are expected to know their 2, 5, 10, 3, 4 and 8 times tables!

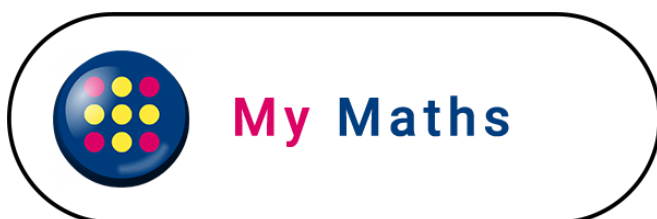

My Maths

All children in year 3 have a login for My Maths in their planners. The children can access lessons online as well as the homework sheets that teachers assign for them. There are also some fun maths games for the children to play and learn! Have an explore and see the different lessons you can learn.

In the Autumn Term we will cover; place value, addition and subtraction and multiplication and division.

Reading

Reading is the most important thing you can be doing at home with your child. Reading helps them with their writing skills and also when we do problem solving in Maths! It is so important that you encourage your child to read a little bit everyday! Even if it is only for a short period of time. You can ask them questions about what they have read and what they liked about it. This helps to see if they have understood what they have read rather than just being able to read the words.

We use an online reading website called Epic! where the children can read online books and there are quizzes about the books.

Purple Mash

Purple Mash is a great resource for the children to be using at home. There are lots of different games the children can play and lots of things they can learn! You can find the resources below to support your child with the topics for this half term: Stone Age and Predators.

Handwriting

In Year 3, children should be writing in joined handwriting with the letters a consistent size. Encourage your child to practice at home on a regular basis. They have a login in their planner for Letter-Join to help them learn the correct joins.

Letter-join 

Topic/Science

In Autumn 1 our topic is Through the Ages where we will learn about how the people of Britain developed over thousands of years from the Stone Age to the Roman Invasion. In science, we will be learning about rocks and soils. In Autumn 2 our topic is Predators. We will look at animals, including humans and plants.
