SALTLEY  
ACADEMY

For the first half term, Year 7 children have an introductory curriculum to support the transition process.

School has 'Outstanding Learners' qualities that are displayed all around school and are incorporated within lessons.

The Behaviour Support Room can be accessed by students who are struggling to make positive choices. Staff teach pupils self-management skills and engage in restorative conversations to help pupils engage in all aspects of school life.

Pupils are expected to be in their next lesson within **3 minutes** between the first and second bell. Staff will stand outside to welcome the children into lessons and there is sometimes supervision in the corridors.

Playtime for all students is at 11:0am. Social interventions run at playtime for children that struggle to cope on the playground.
