Course flyer

This year our support and training package includes many new courses and events, which we have developed in response to your feedback, in order to support you more effectively in an ever changing educational environment.

Our key aim, however, remains the same: to help all our church schools and academies become effective, offering our pupils excellence in their education.

We recognise that the leadership of our schools is hugely important and have updated many of our courses for school leaders, including governors, to support you in your roles.

We are also delivering a number of courses aimed at teacher, co-ordinators, aspiring leaders, business managers/bursars and clergy, so please do encourage them to look at our new package!
