### Aspirations Week

The Junior children have had a fantastic week finding out about different careers. They have enjoyed finding out about jobs in healthcare including first aid training from St John Ambulance Service and a talk on physiotherapy. They found out about jobs in the construction industry from Kier who are currently building a new classroom at the Infant School. Mr Nicholls talked about his career playing football for England and GB and the importance of having other skills and options. A jiu jitsu trainer also came in to speak to the children. They learned about careers in the aviation industry from the Fly2help team and met a pilot called Alice who talked about her career. The PCSO visited and talked about the work of the police. Mr Ballinger talked to them about working for Mercedes Benz and they had hands on experience with a brand new car. It has been a fantastic week and we would like to thank Miss Seychell for organising it. Please visit our website or check out our Twitter feed for pictures.

### National Assessments

Year 2 and Year 6 have completed their national assessment tests. Hopefully the children in Year 2 were not stressed by this process which we keep as informal as possible in the Infant School. We are very proud of the mature approach shown by this year's Y6 children who worked really hard throughout their formal testing week. Both schools are being moderated by the local authority this year so the teacher's judgments will be fully validated.

### Boots for Builders

Children in both schools support Kier fundraising efforts this week by joining the builders who were sponsored to get as many children as possible walking. The Infant children also got to meet their mascot Kiera!

### Half Term

Have a wonderful half term break. We hope the children come back rested and ready to learn on Monday 3<sup>rd</sup> June for the last exciting term of the school year.
