

*Maths Stay and Play*  
*Tuesday 10<sup>th</sup> October 2017*

*Key messages:*

Play is the natural way in which children learn. It is the process, through which children explore, investigate, recreate and come to understand their world.

The quality of children's play is greatly influenced by the adults around them. Adults can provide materials and encouragement and open the door to new activities and learning. As their parent you can support, enhance or extend their play and learning.

Maths is everywhere in the home. With the support of parents, children can grasp many mathematical concepts through their play.
