

Snail One Hundred

You will need: a game board, a die and a pair of matching counters for each player.

The game is about counting up to 100.

To play the game.

To start put both your counters on '0' – which is the snail's eye.

The first player rolls the die and moves their counters that number along the snail's body. Take turns at throwing the die.

After you get to '9' the first counter goes back to '0' and second counter goes onto '1 ten'.

Go on moving the first counter along the snail's body and moving the second counter to the next 'ten' every time you get to the end and go from 9 to 10.

The winner is the first to reach 100.
