

# Something new!

With the national restrictions, partial school closures (and as we cannot go out for trips yet), we appreciate that children's experiences have been limited and are keen to address this. We also recognise that lots of children need help with listening and concentration skills to help settle back into being in full classes. We also want them to have lots of fun! So, we have something new!

## What is now>press>play?

**now>press>play** is an immersive audio resource that engages primary school children in the curriculum through emotion, imagination and movement.

In a now>press>play experience every child is given a pair of wireless headphones. Immersed in sound, they become the main character in a story or situation, meeting people, discovering places and solving problems on an educational adventure they'll never forget.

## Benefits

- Produces outstanding engagement in children of all abilities
- Stimulates children's imaginations and inspires creative writing
- Raises attainment by making learning meaningful and memorable
- Extends children's life experiences
- Helps children develop emotional responses and discussion skills
- Makes learning fun and exciting

Due to the costs, we would not be able to provide this resource as a single school. However, as we are in partnership with Woodside Primary School, we are able to share the costs and children at both schools can benefit. The resource enhances our current planned curriculum in history, science, geography, RE and more. Please ask your child if they have worn the pink headphones yet! All classes are going to have a taster session in the next few weeks.
