

Steam Mills Primary

Governors' Grapevine!

Issue 2 – July 2017

Welcome to the last newsletter of this school year, and what a year it has been! The past few months have seen a great number of successes that have been shared with you along the way but we would like to take this opportunity to say well done to all the children on their achievements.

Learning Walks and Action Plans

Link Governors have met with subject leaders to see first-hand what has been happening in each of the classrooms in a range of curriculum areas including reading, maths, EYFS and SEND; we have discussed progress and reviewed this year's action plans to ensure we are meeting our statutory requirements.

SATs

A huge well done to the children in Year 6 for your phenomenal results!

SEF

Governors have been working alongside staff to complete the Self-Evaluation Form (SEF). We have identified our strengths and areas of development and set targets for the next academic year, using our Ofsted report to support this. Keep an eye out for more details in the first newsletter of the new year.

Thank You!

As the year comes to an end, we would like to thank all the children and staff for their continued hard work and you, their families, for supporting them with this.

Farewell

All that is left to say is farewell and good luck to all the children and their families who are leaving us this summer to go to their new schools. We wish you all the best on the next part of your journey.
