

Dear Parents/Carers,

From the beginning of this term, Holy Trinity will be introducing a new programme designed to improve times table knowledge and understanding. The programme is called The Mighty Multiples Times Table Challenge. It includes a number of sporting characters which will help your child learn their number bonds and multiplications. Children progress around an athletic racecourse towards the ultimate goal of a Platinum Award, awarded for secure knowledge of all areas.

It is not simply a case of being able to chant the tables, but also being able to use them within mathematics to, for example, solve word problems and divide. For this reason, to be able to achieve each award, your child will have to not only recite the tables, but also be able to complete challenges, which cover word problems and division.

The scheme is made up of 4 awards:

Bronze award

Before your child moves into the first times table challenge, they will need to complete a number story and number bond challenge.

Silver award

To achieve the Silver Award they must complete the 2, 5, 10 and 4 times table challenges.

Gold award

The Gold Award includes the 3, 6, 7, 8, 9 and mixed table challenges.

Platinum award

The Platinum Award is awarded for completing all levels, including the 11 and 12 times tables challenges.

Each class will have The Mighty Multiples Times Table Challenge explained to them by their teacher. All formal assessments, to move onto the next challenge, will take place in class. Your child will be given a sheet to take home with the times table they should work on.

We very much look forward to working with you to make this a fun and successful challenge. If you have any further questions, please contact your child's teacher.

Mrs Saunders and Miss Bunting
